SCHÖCK UK
GUIDE 2023

1810

A SCHÖCK GROUP COMPANY

**SINK
GREEN**

SINK GREEN

Our path to a sustainable future

- Electricity consumption per sink reduced by 59% since 2010
- 100% green electricity with guarantee of origin
- Water consumption per sink reduced by 77% since 2010
- 95% of process water is recycled

- Active member of the UN Global Compact
- Packaging can be 95% separated by type and is part of a take-back system
- Continuous reduction in net consumption per unit produced and alternative energy sources with regional sourcing
- Wild flower meadows and green space in SCHOCK factory grounds, including our own bee colonies
- Installation of photovoltaic systems to cover part of our electricity needs

Our SCHOCK service

Submitting a complaint

Our sinks consist of up to 75% quartz. And that's where they get slight colour nuances, spots of matt finish or variation in look and feel. If you have a complaint, we will be there for you.

CHECK LIST FOR COMPLAINTS

- Order or invoice number
- Serial number of the sink from the back of the bowl or serial number of the mixer tap from the label on the connection hose
- Exact description of the complaint
- Send photos clearly showing the issue to **aftersales@the1810company.co.uk**

Serial number

SCHOCK content online

www.schocksinks.co.uk

All information on our products, such as technical details or the kitchen sink configurator, as well as service offerings are available to you and your customers online at any time.

1810 HUB

Our online ordering platform can be downloaded free of charge onto PCs, laptops, tablets plus Apple and Android devices. It is accessible 24/7 making it a completely flexible and versatile account management tool whilst delivering a totally seamless customer experience.

Placing an order

EASY ORDERING

Order number as well as desired delivery date is essential information.

PRODUCT ID

Please make sure that the product numbers are correct when ordering your SCHOCK products.

The product number describes the complete configuration of a SCHOCK sink.

Note on bowl sizes:
XS – XL (LS = large bowl, short drainer)

Abbreviation for **colour**
Here: Magma

SCH-MOND100LAMAG/2369

Internal information

Abbreviation for **model family**
Here: Mono

D With drainer
N No drainer
M Modular
C Corner sink
R Round sink

Number and size of bowls

100 One standard bowl
150 One standard bowl and one half-bowl
200 Two standard bowls

The product number describes the complete configuration of a SCHOCK mixer tap.

Numbers 1-3: Description of **model family** (Here: Altos)

SCH-559000EDM

The last three numbers provide information on the **spout and type of tap:**

000 Fixed spout

Abbreviation for **material/colour finish**

EDM Solid stainless steel
CHR Chrome
WGO White Gold
COP Copper
GUM Gunmetal

In the case of coloured taps, the abbreviation for the specific SCHOCK colour is shown here.

Step by step

1 SELECT A SINK MODEL AND DON'T FORGET TO READ THE MODEL INFORMATION

Our sinks come with a manual drain fitting.

2 DECIDE WHAT TYPE OF INSTALLATION YOU WANT

Individuality – To enable the sink to be coordinated with the material and thickness of the worktop, almost all sink models are available for topmount and undermount installation. Please note the technical information on the product pages.

3 CHOOSE A COLOUR

Variety – The colour summary tells you which colours are available in CRISTADUR® and CRISTALITE®. You'll find the summary for each individual model on the website.

4 ADD THE IDEAL MIXER TAP

Please enter the matching product number in your order. If you're ordering a coloured tap that is not the same colour as the sink, we would appreciate a quick note with your order telling us that this is intentional.

5 ADD ANY SPECIALS YOU'D LIKE

Multifunctional – Custom-fit accessories such as functional bowls or chopping boards are available for various models.

6 COORDINATING VISIBLE PARTS

Aesthetic: Give your CRISTADUR® sink a visual upgrade and colour-coordinate your chosen mixer tap with visible parts in stainless steel, White Gold, Copper, Gunmetal or Puro.

7 ADD CARE PRODUCTS

Flawless – Specially developed care products complement your order and offer the perfect way to keep all SCHOCK sinks clean and looking good. Care and cleaning products are available soon but can be purchased through Schocks spare parts shop: parts.schock.de/en

Product advantages

SCHOCK sinks consist predominantly of quartz. The finishes were specially developed by SCHOCK for the demands of the kitchen. The rigours of everyday use leave barely a trace on our proven material technology.

Who invented it?

SCHOCK is the inventor of the coloured, quartz composite sink and is the only manufacturer to offer CRISTADUR®, a premium, silky-smooth finish.

Externally tested

Various product quality features are regularly tested internally, as well as by DEKRA. This is how we ensure that we meet your quality requirements. In terms of corporate sustainability, we are also subject to external evaluation based on international standards such as GRI or the United Nations Global Compact.

Easy to clean

Poreless surface for an extremely easy-clean, hygienic finish

Odour free

Leaves the surface free of smells
DIN 10955

Heat resistant

Not temperature sensitive up to 180°C
DIN EN 13310

Food safe

Absolutely safe material
DIN EN 1186

Dirt repellent effect

Dirt and water simply roll off

Impact resistant

Tough and hard-wearing material
DIN EN 438-2

Stain resistant

Resistant to food stains
DIN EN 13310

Made to last

Extremely durable
DIN EN 13310

Material CRISTALITE®

**OUR CLASSIC
WITH THE STONY FINISH**

- The classic among SCHOCK sinks
- On-trend material available in many fashionable shades and natural-looking colours
- Robust material
- Beautiful in appearance and attractive on price

Our CRISTALITE® finish feels stony to the touch.
(Illustration)

Material CRISTADUR®

**OUR PATENTED PREMIUM FINISH
WITH SILKY-SMOOTH FEEL**

- Intense colours in more than 10 shades from pure white (since 2021) to jet black (since 2013)
- Dirt repellent effect makes it extremely easy to clean
- Flush mount installation and many accessory options

Our CRISTADUR® finish has a silky-smooth feel.
(Illustration)

Material

CRISTADUR®

Green Line

THE MOST SUSTAINABLE SCHOCK
MATERIAL TECHNOLOGY

- **Mostly made from natural, renewable or recycled raw materials**
- **All the familiar quality features of CRISTADUR®**
- **Intense, matt colours from pure white and jet black to bold shades of colour**

Like all SCHOCK sinks, CRISTADUR® Green Line models consist mainly of quartz, which is combined with colour additives from natural sources and binders made from recycled or renewable components.

And we are continuing to work on optimising new products in this sustainable direction.

Technology patents
pending

CRISTADUR®

advantages

The premium material wins fans with its **patented, poreless structure** and beautifully shimmery finish, from which any dirt and water simply roll off. Being extremely easy to clean, it's not just the look of CRISTADUR® that makes it a luxury to befit any kitchen.

SILKY-SMOOTH FINISH

Feel the difference with the poreless structure.

DIRT REPELLENT EFFECT

Water and dirt simply roll off the surface, leaving nothing for germs and bacteria to grow on.

EASY TO CLEAN

The poreless finish and dirt repellent effect makes the sinks extremely easy to clean.

INTENSE COLOURS

More than 11 intensely shimmering colours from pure white to jet black – and if you like it loud, you can even have red.

Tested with boiling water taps

Range of flush mount models available

Patented technology
Further patents pending

Based on resource-saving production in Germany and quartz as the main component, all SCHOCK quartz composite sinks are made with a responsible approach to nature and the environment. The CRISTADUR® Green Line is SCHOCK's most sustainable option for a conscious purchasing decision as well as an additional upgrade for the kitchen architecture.

**CARBON NEUTRAL
COMPANY**

Our path to a responsible and sustainable future includes the continuous improvement of our processes at all levels. From biodiversity on our factory site, resource conservation in production to equality and health protection for our team and the entire supply chain.

**GREEN
LINE**

The innovative product line from SCHOCK impresses with its sustainably optimised composition as well as its high-quality matt colours.

Installation types for our kitchen sinks

Besides the selection of colours and models to choose from, you can also individualise your sink with the type of installation you opt for. Please see the product range summaries for the different options available.

Topmount installation

Classic installation type, dropped in from above, for all SCHOCK sink models and all worktop materials.

Undermount installation

Fashion-forward installation type for the majority of SCHOCK sink models and matching worktop materials.

Modular installation

Typical of a farmhouse kitchen, the modular sink can be installed between two worktops or in a suitable notch. Overhang varies depending on kitchen planning.

RECOMMENDED MINIMUM WORKTOP THICKNESS

Please note that if the sink is going to be installed with the help of our mounting brackets, we recommend a **worktop thickness of 30-40 mm** to ensure optimal grip. If the worktop is thinner than that, you will need to double up.

MULTI FUNCTIONAL ledge design

Sink series with useful ledge:

CRISTADUR® Greenwich N-100XL, Greenwich N-200, Kiruna, Kyoto, Mono N-100 + N-100S, Prepstation, Tia

The **integrated ledge** for hanging and laying accessories in the sink creates a multifunctional working platform for all those who love cooking.

Foldable drip racks in coordinating finishes, racks to hold **Gastronorm containers** and **chopping boards** are some of the other extras enabling space-saving working in the heart of the kitchen.

Take a further look:

You can find all of the functional highlights (including chopping boards, Gastronorm containers, multifunctional bowls, draining boards) and the design extras (including visible parts) on our website.

Just
perfect:

Perfect Drain

With the Perfect Drain, the strainer basket fits **seamlessly** into the sink and disappears under the stylish cover for the strainer.

It also offers practical benefits, being **easy to keep clean, looking good and hygienic**: even the smallest of grime particles can find no place to stick and leave unsightly scum.

The Perfect Drain is a design feature of the CRISTADUR® sink series, **Greenwich, Tia, Prepstation.**

Perfect Drain adapter for waste disposal unit

To attach a food waste disposal unit to a sink fitted with the Perfect Drain, you need the adapter
WG-100 (Art.No. 629139)

Flexible accessories

With a choice of accessories providing added functionality, the sink is transformed into an **efficient workspace** – optimally suited to the needs of different users and especially good for the smaller kitchen too.

SILICONE DRAIN MAT

SCH-629188 (width 415 mm)
SCH-629189 (width 408 mm)

- Flexible addition to all models without a drainer, especially undermount sinks
- Protects the high-grade worktop
- Dishwasher proof and heat resistant silicone for hot pots and pans or for glasses and such to drip dry

GASTRONORM CONTAINERS

SCH-629060 (2/8", perforated),
SCH-629061 (2/8"), **SCH-629063** (2/3")

- For prepping meals, from chopping and washing ingredients to steam cooking; also suitable for storing produce in the fridge
- With the multifunctional rack, Gastronorm containers can be placed straight into the sink. Special pads ensure a stable grip on the edge of the sink

VERSATILE CORNER BOWL

SCH-629733

- Suitable for almost all SCHOCK sinks*
- Temporarily store waste and food scraps or use as a colander during food prep or as a dish for your dishwashing utensils
- Made of dishwasher proof and food safe plastic in anthracite
- Silicone pads under the edges or better grip

*Not compatible with the Mono R-100, Signus C-150, Kallio and Tia ranges

CHOPPING BOARDS

in various sizes

- For use separately or can be laid on the ledge as a work surface inside the sink for prepping food
- SCH-629158 wooden chopping board fits the Prepstation, Greenwich N-200 and Kiruna

DESIGN DRIP RACKS

in two variants and up to three finishes

- Multifunctional: can be used on or beside the sink as a place to put things down or somewhere for sponges or dishes to drip dry
- **Variant 1** SCH-629724 - Set of two separate elements in stainless steel or black
- **Variant 2** SCH-629725 - One-piece, foldable element available in stainless steel, black or copper to complement your taps and visible parts

Quartz composite product care

60% of all kitchen chores are done at the sink. And most of the time it doesn't stay clean. So we developed a range of special care products. The cleaning and care substances in the various care sets are specially designed to meet the needs of quartz composite sinks.

Only **a few drops of the highly active** substances are needed to remove any **residues, discolouration, scale build-up** or even damaged spots with the appropriate cleaning set.

More information on keeping your sink looking good, alongside care videos and FAQs, can be found in our **care centre**:

schock.de/int_en/service/care-center

All of the products in the SCHOCK care range are available in the **spare parts shop** at:

parts.schock.de/en/

Questions and answers on product care

? WHAT IS THE BEST WAY TO KEEP A SCHOCK SINK CLEAN AND LOOKING GOOD?

You can use ordinary household cleaners, such as washing-up liquid, to clean your sink. We recommend the SCHOCK care range created for your specific product in addition, as these substances have been specially developed for the sink's quartz composite finish. For instance, using Dur-Care on the premium CRISTADUR® finish with the dirt repellent effect makes dirt and grime easier to remove.

The EasyCare Set is suitable for both material finishes. With regular use it will keep SCHOCK sinks looking good and protect them long term.

? HOW DO I REMOVE STUBBORN DIRT OR GROUND-IN STAINS?

For intensive cleaning, dissolve max. 2 portions of dishwasher powder in 3 litres of water and apply the solution to the dirt or stains and leave it to soak in, preferably overnight. Then rinse with plenty of clear water and dry with a cloth – stubborn dirt will be a thing of the past. SCHOCK also offers you a perfectly matched range of care products. Our EasyCare Balm is optimally suited to giving your sink some tender loving care after cleaning.

? HOW CAN I REMOVE THE SIGNS OF EVERYDAY LIFE FROM MY KITCHEN SINK?

For CRISTADUR® and CRISTALITE® sinks we recommend keeping the surface clean with ordinary washing-up liquid or a SCHOCK magic sponge. If you have a light-coloured sink you can use the EasyCare Brightener from time to time. Then seal the surface with our EasyCare Balm.

? HOW DO I REMOVE LIMESCALE AND SOAP SCUM?

We recommend you use the EasyCare Descaler to quickly and effectively remove limescale, soap scum, cloudy build-up and grime. It also gets rid of stubborn scale deposits, preventing germs and bacteria from taking hold.

? HOW CAN I REMOVE METAL SCUFF MARKS?

It's very easy – just dampen a SCHOCK magic sponge and rub the scuff marks away.

? HOW CAN I REMOVE SIGNS OF AGE?

Years of kitchen life and kitchen chores are bound to leave their mark. The finish on a SCHOCK sink can easily be refreshed with the help of the Dur-Care Set.

? WHAT DO I HAVE TO REMEMBER TO KEEP MY MIXER TAP LOOKING GOOD?

The best way to clean our mixer taps is to use conventional washing-up liquid and a sponge or cloth. Avoid bleaching agents or acid-based cleaners and rough sponges (such as metal pot scourers).

Kitchen tap details

A mixer tap consists of many different components. This summary shows you what the different elements are called and explains what they do.

MIXER TAP SERVICE VIDEOS

We recommend you have our products installed by a professional. You can find our service videos on installation and spare parts on the product pages of our website and on our YouTube channel SchockGlobal.

Coloured taps

SC-510

SLEEVE TECHNOLOGY

Patented technology enables SCHOCK to bring mixer tap and sink together in unity. With our sleeve technology, all SC models can be matched perfectly in colour and material finish to CRISTADUR® and CRISTALITE® sinks.

Soap dispensers

Extra function, extra colour

- 1 **Design:** Integrated dispenser instead of visually distracting washing-up liquid bottle.
- 2 **Convenience:** Easy to fill from the top.
- 3 **Multifunctional:** Washing-up liquid or hand wash always at hand.
- 4 **Highlight:** Upgrade SCHOCK sinks with the Samo in the same finish

Kallio M-175
with visible
parts in Puro

Matching visible parts

Stainless steel

White Gold

Copper

Gunmetal

Puro

Our Kavus and Keto taps are available with PVD coating.

They can be optimally combined with decorative visible parts in the same finish, consisting of **overflow cover, drain cup and basket strainer.**

This will turn your sink and tap into a **designer creation.** Visible parts are available in stainless steel, White Gold, Copper, Gunmetal and Puro.

SCHOCK

The company

Did you know that ...

>100

... as an innovative company, we have registered over 100 patents?

>150

... we have over 150 sink models in over 20 colours?

>60%

... more than 60% of all quartz composite sinks worldwide are produced using our process?

>70

... customers in over 70 countries put their trust in SCHOCK products?

Since 1979 and the invention of the quartz composite sink, we have always pursued the same goal across all parts of the business:

to pour all our innovation, passion and craftsmanship into making life around the kitchen sink more beautiful, more convenient and more colourful in ever new ways.

The mixture of **handmade quality** and **innovative technologies**, of **Made in Germany** and a **strong position on the global markets**, of **pioneering spirit** and a **sense of tradition**, of **passion** and **expertise** is what has made us over the past decades into what we are today: a company with continuous growth, able to look back on a long and successful history and to go on writing new chapters in our story every day.

Founded in 1924

we are now writing around 100 years of SCHOCK history

CRISTADUR®

THE PREMIUM SATIN MATT FINISH

The patented premium material wins fans with its poreless structure and beautifully shimmering finish – the dirt simply rolls off. This makes it exceptionally easy to clean as well as being hard-wearing and made to last. Extra-special: our sinks carry the Quooker® proved label thanks to special testing with boiling water taps.

And because we believe in our quality handmade in Germany, we give consumers a 15 year warranty on CRISTADUR® sinks – in other words, a kitchen's lifetime.

The shimmering, silky-smooth finish comes in nine intense colours from white to jet black. And if you like it loud, you can even have bright red.

CRISTALITE®

THE COMPOSITE SINK FOR BEGINNERS AND TRENDSETTERS ALIKE

CRISTALITE® is our classic, and it is constantly setting new trends in the contemporary kitchenescape with many fashionable shades of colour. The CRISTALITE® surface finish is stony to the touch and is a reminder that even this on-trend material is made from the hardest constituent of granite – natural quartz sand.

The CRISTALITE® finish is hard-wearing and easy to clean, making it the embodiment of long-lasting cooking pleasure.
