SCHOCK

New for
2027

A DIFFERENCE YOU FEEL

For many people it's
the most insignificant thing
in the kitchen.
For us, it's the coolest thing
in the world: the sink.
And it's been that
way **for over 45 years**.

Sounds over the top?
Perhaps.

Still, you'll rarely
run a finger
lovingly over the
velvety surface
of your sink
and give it an
appreciative nod.
You're more likely
to use it to cool eggs,
pour away dirty
cleaning water,
leave pans to soak,
tap ice cubes
out of the tray and
scrub your dirty
festival shoes when you
get back home.
That's precisely
what we make it for.

We take an ordinary
object and
turn it into
something that's anything but
ordinary.
Every single time.
This starts with
the material
and doesn't stop
when it comes to
the way we talk
about sinks.

A DIFFERENCE YOU FEEL

SCHOCK
New for 2027

NEW MATERIAL FOR 2027

AMODUR®

Our AMODUR® material innovation doesn’t fit into a word like “new”. That’s why we invented not only the material but also a word to describe it: hardvelvet. Fibreglass composite is almost indestructible against impacts, heat, cold, light or chemical stress. Year after year, decade after decade. For all its toughness, the surface finish feels unexpectedly silky. The solid beauty of AMODUR® is guaranteed for a lifetime.*

*Extended warranty available: For AMODUR® sinks, SCHOCK offers consumers an extended lifetime warranty when they register their sink within 6 months from the date of purchase.

SCHOCK

AMODUR®
Colours

How dark does black feel?
And what does white feel like on your skin?
For every feeling, we have the right colour.

AMODUR® Prime Line

Alba (94)

Aura (96)

Nox (95)

hardvelvet

Lasting colour stability meets effortless cleaning and a luxurious velvety feel – all in one material.

Preflow™

WORLD FIRST

Preflow™ is the integrated, automatic overflow solution. As soon as the water level reaches 140 mm, the bowl drains automatically and completely. Reliable, without a visible overflow. With the Preflow™, we offer an overflowless solution that makes the sink optimally easy to clean.

This world first is standard for the AMODUR® product range.

Even the moon
is round.

Solaro blends soft with tough. Round with corners end edges. Sinks with plates. Finally a form, that fits perfectly.

Solaro

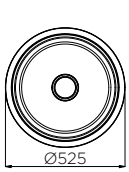

DESIGN HIGHLIGHT

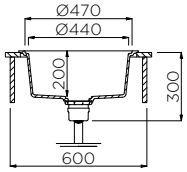

Solaro

Solaro R-100L

Technical data

Functional

Draining, washing, chopping – do it all right there at the sink. With the included accessories, the bowl becomes a multifunctional workspace.

Spacious

The 200 mm deep bowl offers great filling volume and plenty of space for large pots and baking trays. Fits a cabinet from 60 cm.

Flexible

Topmount, undermount or flush-mount: the new design approach combines all installation types in one and reduces the number of stock keeping units (SKUs).

Work and no work mode

Rethink the kitchen sink: With the right accessories, the sink becomes a multifunctional workspace. In “standby mode” it can be an additional work surface, or it can just look beautiful.

Included accessories

Chopping board

Drainer

Functional bowl

Wastecap

Claros

DESIGN HIGHLIGHT

Puristic

Available with or without tap ledge – for absolute design clarity in the premium segment. Slim rim and finely crafted corners shape the precise, elegant design language.

Multifunctional

Deep bowls not only accommodate large cookware but, with the right accessories, the sink becomes a multifunctional workspace.

Hygienic

No place for germs to hide: noticeably easier to clean thanks to the overflowless surface.

All-in-one solution

A sophisticated design approach combines all installation types in one. Four sizes, to fit a 45 cm, 50 cm, 60 cm and 80 cm cabinet, offer maximum flexibility for planning and installation.

CRISTADUR® + GREEN LINE = CRISTADUR®PLUS

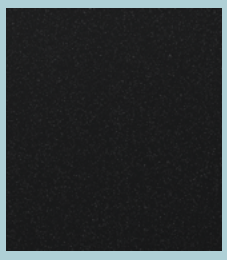

CRISTADUR®PLUS

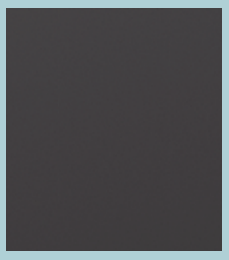

What do you get when you combine the silky-smooth feel and easy-clean finish of CRISTADUR® with the future-oriented material components of the Green Line? CRISTADUR®PLUS. An evolution. Once again.

For CRISTADUR®PLUS sinks, SCHOCK offers consumers an extended 15-year warranty when they register their sink within 6 months from the date of purchase. Schock.de/int_en/warranty-conditions-and-exclusions

Kaia B-100

Kaia B-100L

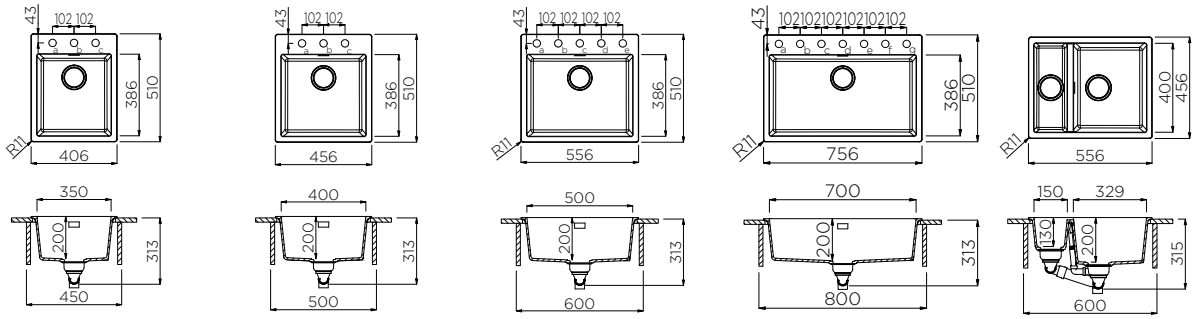

Kaia B-100XL

Kaia N-150

Technical data

Flexible

Five additional models, three installation types and one solution for different kitchen situations. The design approach combines all installation types (topmount, undermount, flush-mount) in one and reduces the number of stock keeping units (SKUs). To fit a 45 cm, 50 cm, 60 cm and 80 cm base cabinet.

Minimalist

Kaia keeps a low profile: with a narrow rim and small radii on the inside and outside of the bowl.

Spacious

The 200 mm deep bowl offers great filling volume and enough space even for large cookware.

Easy to clean

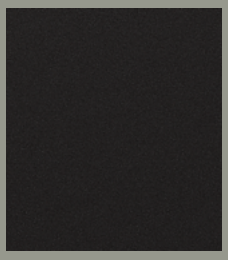

The bowl radius increases continuously from top to bottom. This makes everyday cleaning of the Kaia range pleasantly easy.

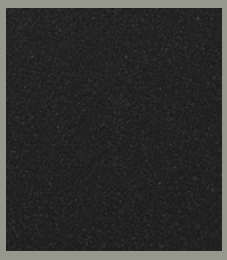

THE ORIGINAL

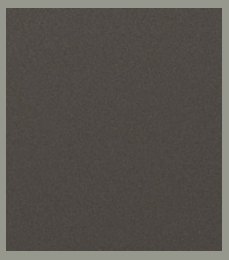

CRISTALITE®

To this day, The Original still sets the standard for impressively tough kitchen sinks. CRISTALITE® is scratch resistant and made for whatever life throws at it. With characteristic, stony feel.

Lima D-100L

Technical data

Flexible

The three additional sizes for 45 cm, 50 cm and 60 cm cabinets allow retailers to offer the right solution for any kitchen.

Purist

The minimalist edge design meets a textured drainer and creates a modern, clean look.

Spacious

The deep bowl offers plenty of space for large pots and baking trays. This makes even large cookware a pleasure to handle.

Easy to clean

Narrow drainage grooves make it easier for the water to run off.

Mixer taps

**Without them, there’d be nothing.
Especially no water. But no admiring looks either.**

Talia D & Talinos D

Talia D

Solid stainless steel

Black

Talinos D

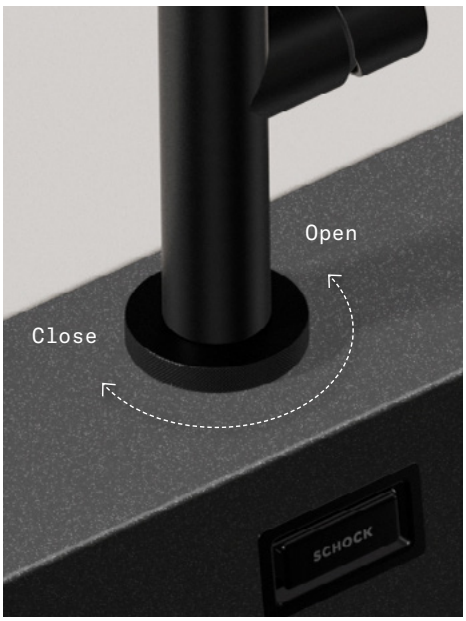

Solid stainless steel

Black

Highlight

Innovative mixer taps with integrated drain control.

Integrated pop-up control

The strainer can be opened and closed by turning the base of the mixer tap – no need for an extra hole to be drilled in the sink.

Integrated Bowden cable

The cable for the pop-up control is pre-installed and only needs to be hung on the drain fitting.

Pull-out tap

With connection of a fixed-spout variant.
No spray hose or counterweight needed in the cabinet. Leaves more space for waste separation systems.

Innovative mounting kit

For quick and easy installation above the worktop: Can be fitted from above in under 60 seconds.

Epos

Epos SB

Chrome

Puro

Highlight

Epos with pull-out spray head: The mixer tap's new spray function means you can switch the water jet to a spray function at the push of a button.
